

## ABSTRACT OF THE DISCLOSURE

A lotion applicator for applying lotion to a body of a person includes an applicator body and a handle that extends from the applicator body. A sheet is impregnated with lotion. A fastener is associated with at least one of the lotion-impregnated sheet and the applicator body and removably attaches the lotion-impregnated sheet to the applicator body. The lotion that is impregnated in the lotion-impregnated sheet is at least one of bug spray, sunburn lotion, dry skin lotion, sunscreen, tanning lotion, pain reliever, muscle relaxing lotion, acne medication, anti-itch lotion, self-tanning lotion, hair removal lotion, body hair bleaching agents, perfume, and topical medications.
